

AL PATTON TO BE HONORED AT OSHKOSH

Perhaps even as you are reading this, Al Patton, EAA 172's Founding Father, Tech Counselor, Newsletter Editor and aviation Guru, is on his way to EAA Oshkosh Airventure® 2009, in Oshkosh, Wisconsin, to be honored with an EAA Major Achievement Award. This is a very special award given out to a select group each year in recognition of their dedication to EAA and to their local chapter, in this case, for Al, to EAA 172. It is given for the recipient's service to the aviation community and personal achievement in aviation.

The award is being given out on Saturday, August 1, 2009, during the Chapter Leaders Breakfast in the new Founders' Wing in the EAA AirVenture Museum. The breakfast will start around 7:30 AM CDT. Afterwards the recipients will sit in the front of the audience and will be called up to be presented the award. There should be a video feed on the EAA Website of this presentation.

Al Patton in the History Tent at Boshears – a history to which he made great contributions.
